

Petite Perfect

Petite Plus Patterns designer Kathleen Cheetham has a goal: to help petite plus women like herself “wear the clothes they always wanted to wear.” She designs her patterns in sizes 14 to 24 especially for the shorter woman with narrow shoulders, D-cup bra, rounded tummy and abundant curves. Each pattern comes with “The Perfect Fit Guide” with tips and tricks from her custom clothing business. Two season-savvy choices: 103 Button Front Blouse, a short- or long-sleeve blouse, featuring bust darts, side slits and a V-neck with optional collar; and 651 Walking Skort, above-knee shorts with a button-front skirt panel joined by a comfort waistband discreetly elasticized at each side back.
