PETITE PLUS

Pants are a challenge, and getting the right fit seems to be a sewing priority for everyone. So when I discovered Petite Plus Patterns I couldn't wait to test the pants pattern. Using two different petite plus models, with fitting challenges of opposing extremes, I followed the instructions to whip out muslins for each person. In all honesty, the fit was excellent. Sewing becomes so much easier when you start with a pattern close to your size that you can fine-tune instead of rebuild. I can't wait to try the jackets and blouses. For more information, visit www.petitepluspatterns.com or call 877-909-8668.
